Your personal marmot experience

Marmots close-up

Description

On the Grossglockner High Alpine Road you get very close to the marmots. Since I am very often on site, I can also offer individual workshops at short notice. In the course you will learn everything about "my" marmot familys, you will get the best tips for staging the cute rodents and you will profit from my 15 years experience with this rodents. The course is suitable for everyone, whether beginner, advanced or mainly marmot fan. No alpine knowledge is required. Ww will have lots of fun for sure!

Contents

- Everything about "my" marmot familys
- the best tips for good photos
- Individual photographic basics depending on your level of knowledge
- Helping you with selfies and own photoideas

Events

Between middle of May and late September on request, half a day in the morning or in the afternoon

Procedure

The exact meeting point and directions will be announced after booking. The journey to the Großglockner takes place independently.

Notes

For the photographers:

Take with you: own camera (DSLR or system camera) with full battery and enough memory. A telephoto lens from 200mm and / or converters are appropriate, as well as a wide angle. All focal lengths can be used. A tripod or flash - if available - is useful. We take pictures in all weather conditions, especially in "bad" conditions special pictures may occur. Therefore, please dress appropriately for the outdoors.

For all others:

Just bring a good mood!

Generally:

We are in the mountains! Even if we do not climb or hike far distances, sturdy shoes, outdoor proved and warm clothing and a good sunscreen are a must. Also note that it can be much colder at this altitude.

Subscriber

From 1 to 2 persons

Costs

Look at my homepage

The toll for the Großglockner High Alpine Road is not included.

Food for the marmots is included.

I am happy to give tips for suitable accommodations based on personal preferences.
